Prepared by **ItWorks** — AI-First Managed Services

CONFIDENTIAL · JUNE 2026

Client	Solution	Timeline	Model
Organic Hair & Beauty Brand	Custom AI-Powered CRM	Scoped After Discovery Call	Setup Fee + Monthly Retainer

1. Introduction

At **ItWorks**, we specialise in helping small and medium businesses streamline operations with AI-powered solutions built to grow with you. For your organic hair & beauty products business, we propose building a **custom CRM system** that centralises customer data, automates follow-ups, and creates the operational backbone needed to scale confidently.

2. Your Business Needs

Through our initial conversations and industry understanding, we identified the following key challenges:

- **Growing customer base** — A loyal base of repeat buyers whose relationships need structured nurturing.
- **Multi-channel lead sources** — Leads arriving from website, social media, and word of mouth — without a central hub to track them.
- **Operational fragmentation** — Managing orders, follow-ups, and history across spreadsheets introduces risk and missed opportunities.

3. Our Solution

We will design and deploy a **lightweight, scalable CRM** tailored specifically to your organic beauty business — no bloated enterprise software, no unnecessary complexity.

■ Customer Database Contacts, purchase history, product preferences, and communication logs in one place.	■ Sales Pipeline Track every lead from New → Qualified → Converted with a clear visual pipeline.
■ Order Management Monitor order status (Pending, Shipped, Delivered) linked directly to each customer record.	■ Automated Reminders Email and WhatsApp notifications for follow-ups, reorder prompts, and post-purchase check-ins.
■ Webflow Integration Capture leads directly from your website into the CRM — no manual data entry.	■ Automation Workflows n8n or Make.com connects your CRM with marketing tools, email, and social channels.

4. Key Benefits

- **Centralised customer intelligence** — No more scattered spreadsheets — every interaction, order, and preference in one searchable system.
- **Automated follow-ups** — Timely, personalised messages strengthen relationships and drive repeat sales without manual effort.
- **Order tracking visibility** — Smoother fulfilment, fewer missed updates, and happier customers who know where their order stands.
- **Scalable by design** — Add new products, team members, or channels in hours — not weeks.
- **Marketing automation ready** — Connect seamlessly with email campaigns, WhatsApp broadcasts, and social tools as you grow.

5. Pricing Structure

We believe in transparent, fair pricing aligned to the value we deliver. Exact figures are confirmed after your Discovery Call — ensuring you pay only for what you actually need.

Setup Fee (One-Time)	Covers full CRM design, build, deployment, third-party integrations, and hands-on team training. You own everything we build.	Scoped after Discovery Call
Monthly Retainer	Covers hosting, maintenance, automation monitoring, feature updates, and priority support. Cancel anytime with 30 days notice.	Scoped after Discovery Call

All pricing is agreed upfront in writing before any work begins. No hidden fees.

6. How We Work Together

01	Discovery Call A free 30-minute conversation to understand your priorities, select features, and agree on scope and timeline.
02	Build & Deploy We design and deploy your CRM backend, dashboard, and all integrations. You review and approve at every milestone.
03	Training & Handover We train your team to use the system confidently. Full documentation provided. You are never left guessing.
04	Ongoing Optimisation We monitor performance, gather your feedback, and continuously improve the system as your business evolves.

7. Discovery Form — Tell Us About You

Please complete this form prior to your Discovery Call. It helps us arrive prepared with relevant ideas.

- | | |
|---|---|
| ☐ Ready to start immediately | ☐ Within 3 months |
| ☐ Within 1 month | ☐ Exploring options only |

Book your Discovery Call at cal.com/kashif-ahmed-q1odeg/30min

We genuinely believe that the right technology, thoughtfully implemented, can transform how a small business operates — freeing you to focus on what you love: creating and selling exceptional organic products.

This proposal is a starting point, not a fixed contract. Every detail — features, timeline, and investment — is shaped around your reality during the Discovery Call. There is no obligation, no pressure, and no pitch. Just an honest conversation about what's possible.

We look forward to building something great together.
